Launch Date: 2001

Owners: Privately Held

Corporate Headquarters: Springfield, Missouri

Description: RegionsRx, LLC is a supply chain improvement company providing innovative cost management and revenue enhancement solutions to the Healthcare Provider Organization. Designed to meet the complex supply chain demands of today's healthcare provider entities, the RegionsRxTM product portfolios extend to hospitals, health systems, home health providers (*ambulatory infusion services*), ambulatory surgery centers, long-term care pharmacy providers, PBM mail order pharmacies, retail outlets (*chain warehouse, independents, pharmacy associations*) physician practices and government sponsored healthcare delivery channels (VA, DoD, State Facilities, PHS). The Company has developed proprietary procurement applications utilizing management's knowledge capital and expertise within both the pharmaceutical manufacturing environment and the healthcare group purchasing arena.

Mission: RegionsRx's mission is to be the nation's leading healthcare supply services company, delivering clinical and economic value across the healthcare provider continuum.

Products and Services:

- Pharmaceutical Procurement Services (Strategic Sourcing)
- Supply Chain Advisory Services
- Business Development Services (Supply / Revenue)
- Healthcare Informatics Applications & Services

Management: RegionsRxTM has assembled a seasoned management team with strong and deep healthcare experience. Our directors, officers and staff have extensive experience as entrepreneurs, investors and operators of healthcare enterprises. Members of our management team received foundations from across the prescription pharmaceutical world during tenure with global pharmaceutical firms, healthcare service companies (*Health Plans, PPOs, HMOs*) and leading group purchasing organizations (*GPO's*), capturing a firm insight into manufacturer contracting as well as medication distribution models.
